## Key Achievements

### Enhanced User Engagement

Improved user engagement by 40% with AR solutions for major brands like Pepsi.

### Project Ownership

Led development of 5+ standalone projects using MERN stack, showcasing end-to-end skills.

## EXPERIENCE

### WonderTech | Sr. Full-Stack Developer

Jan 2024 - Present | Karachi, PK

- Designed and deployed interactive AR solutions for brands such as Pepsi, Tresemme, and Bank Alfalah using Lens Studio—leading to a 40% uplift in user engagement.
- Engineered browser-based AR experiences using Three.js and AR.js, increasing accessibility and creative flexibility across platforms.
- Developed various high-performance desktop applications in Electron.js using Inter-Process Communication (IPC).
- Created a gamified training experience for SINDBAD DRIVING SCHOOL using Unity and Node.js, improving learner engagement with real-time interaction for 500+ users.

### SysAi.Lab | MERN Stack Developer

May 2023 - December 2023 | Karachi, PK

- Worked on 2 products as a full-stack developer while handling hosting and deployment ensuring seamless experience.
- Refactored a legacy MERN codebase, improving scalability, maintainability, and version control practices with Git.
- Enhanced UI/UX across key product views through iterative design updates based on feedback and usability testing in agile sprints.

### Artistic Milliners Unit-5 | Developer Intern

Jul 2022 - Aug 2022 | Karachi, PK

- Supported the launch of an internal SCADA application for process automation in collaboration with senior engineers.
- Built foundational skills in software architecture and industrial-grade development environments during internship.
